

## Education Program in Anatomy

The anatomy facility is governed by the Anatomy Act of Ontario and therefore access to the anatomy lab is a privilege. Failure to follow the lab rules will lead to expulsion from the lab and removal of lab privileges.

While using this facility we ask that you abide by the following Lab Rules:

- Use your passcard to enter the lab, if not, sign in at the front desk (your passcard allows only **your** entry into the lab, others must use their own passcard or sign in at the desk)
- No cell phones are permitted
- No food or drink
- No unauthorized guests
- No open-toed shoes can be worn in the lab
- No unauthorized photographs, videos or other recordings are allowed
- No material can be taken from the lab under any circumstances

If you do not have access to the lab you must:

- Sign in at the front desk
- Be oriented to the lab

Thank you for your cooperation.
